## Print Ready File Format

**We accept** the following file formats:

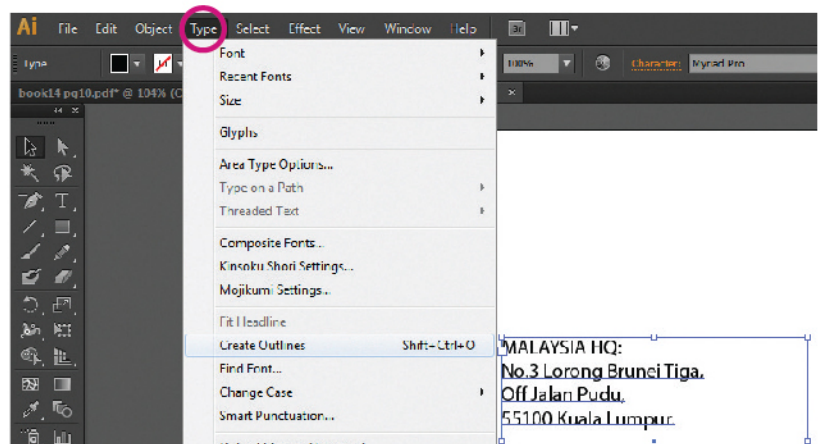

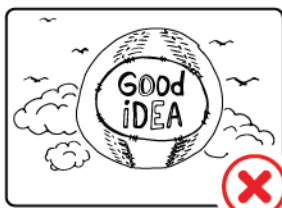

Recommended file formats to export images or design for printing.  
Also editable and outlined files in Adobe Illustrator.  
White backing layer needed in artwork.

- Save in **.ai** format. No other format will be accepted.

- 1 All **artwork or images** must save in **CMYK** colour mode.
- 2 All **fonts** need to **create outline**.
- 3 All **picture** for print need to be created at **300 dpi & above**.
- 4 All **picture** need to be **embedded**.
- 5 Please **make sure your artwork/images no jaggy and not crisp**.
- 6 Please **remove unneeded design** to avoid mistake.

## Line Details & Fonts

- 1 Fonts **must create outline**.
- 2 Some fonts have copyright restrictions and will not embed in PDF files.
- 3 Make sure **font is at least 16pt** – very small text can look good on screen but does not print well.
- 3 **Outline will be added** for fonts size smaller than 36pt or stroke thinner than 3pt to make sure the artwork is secure for printing.
- 4 Make sure **Lines at least 3pt stroke** – thinner lines can look good on screen but does not print well.
- 5 Hollow out pattern design might **not recommended**.

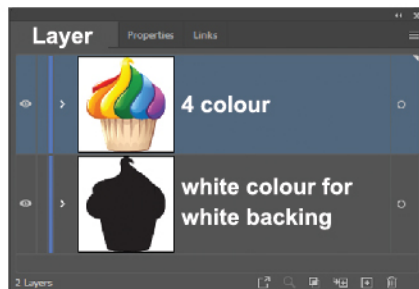

# Image Format For Print Ready File

**We accept**   
the following file formats:

• eps • psd • tiff • jpg

- 1 All artwork or images must save in **CMYK** colour mode.
- 2 All picture for print need to be created at **300dpi** above.
- 3 All picture need to be **embedded**.
- 4 Please make sure your artwork/images no jaggy and not crisp.
- 5 White backing files is needed.

• The file which contains ONLY the image / artwork that is to be printed in offset colour.

• White backing vector files is needed.  
(white colour [ for Spot white backing purpose])

## Colour Mode

All artwork and/or images must save in CMYK (Cyan, Magenta, Yellow and Black) colour mode.  
If you saved under RGB mode, e-print system will automatically convert to CMYK mode and overall colour space will change.

How  
CMYK / RGB  
colours work.

 Used for printing.

 Used for computer screens.

- Percentage (%) of C100, M100, Y100 and K100 must not exceed 250% in total.
- To achieves text in **SOLID BLACK** or **GRAY**: Please fill in % in K only.
- Please ensure selected line is not thinner than 3pt.

## Embedded images

Please ensure your print ready file is embedded above images.

### Resolution:

- Minimum 300dpi (dot per inch) required.
- Images designed for the web are done at a low screen resolution of 72dpi. Print image need to be created at 300dpi or there will be a substantial drop in the image quality.
- Example:

#### High Resolution

Picture created and printed at high resolution of **300dpi**.

#### Low Resolution

Picture created at low resolution of **72dpi** will cause the image to be jaggy and not crisp.

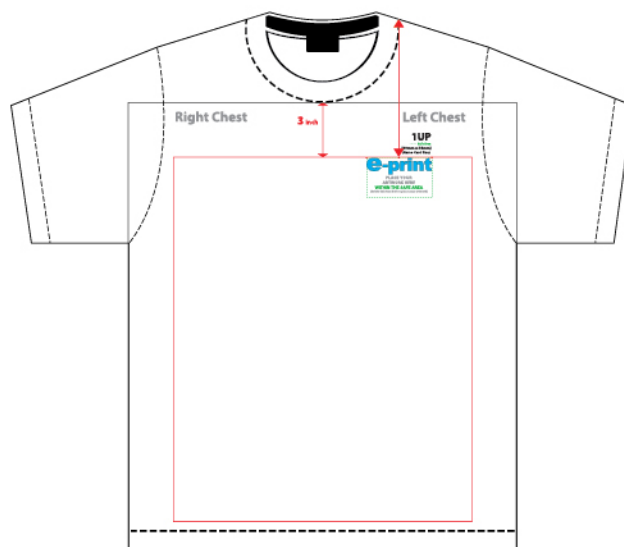

## File #2 Artwork positioning placement file.

You can download the template from [www.e-print.my](http://www.e-print.my)

Place your artwork in any position within the **RED COLOUR BOX**.

# ARTWORK POSITIONING PLACEMENT AREA

- You can place your artwork in any position within the **RED COLOUR BOX**.
- The artwork placement area size are different for each different size of garment.

### NOTES:

- Printing on the seam is not possible.
- Artwork placement area is limited by garment size and may have to be adjusted with no further notification.
- If artwork not supplied as above your order will not qualify for our refunds or reprint policy. Get in touch with our team if you need help editing, or formatting your print files.

### REMEMBER!

The visual template is full scale. Please allow slight 5% difference due to manual measurement and a little colour variation for different display setting.

Due to the fact we use human employees to handle your precious garment, and we are printing on a movable, stretchable surface the print could be slightly shifted up to a half inches (0.5") in any direction.

### Responsibility

- We are not responsible for any misplacement, picture blur, spellings or typo error on customer's artwork. In short, we print what we received.
- We will not be responsible for any artwork and content fill up with overprint (Font & Images) which will not print out in final product.
- We will not responsible for any dissatisfaction on printing quality that cause by incomplete process from the above mentioned.

### Free Assistant
